**Crescent Moon**, a company founded on the belief that functionality does not have to come at the expense of style.

As we do not believe that one month is enough for breast cancer awareness, we wanted to highlight the bag that we call the "Caring Case™ Collection". All year-round we donate 10% of the sales from these bags to the Breast Cancer Research Foundation.

We also stand behind every product we sell with a complete satisfaction guarantee. This passion for better yoga and Pilates accessories, together with better customer service has been recognized and awarded by media outlets in the US, Canada and around the globe. Please visit our [press area](#) to see recent reviews.

Thank you for your support and please make sure you join our [mailing list](#) for future announcements and special offers!

## Introducing the ECOMat!

In an ongoing effort to introduce products that are both better for our environment and more innovative than anything currently on the market, we are proud to introduce the first "earth-friendly" yoga and Pilates mat!

This innovative folding mat is made from a unique patented TPE foam. **This mat contains no PVC, latex or rubber, and uses no toxic materials in production.** Its patterned micro-channel grooves provide superior traction. The closed cell construction prevents the absorption of fluids, while also making it easier to keep clean and more hygienic.

This lightweight mat is still 1/4" thick for extra cushioning and is designed to fold so that you may easily "double-up" the mat for additional cushioning, or support, when needed. For more information on the new ECOMat, [click here](#).

## ExerSocks™ !

The ExerSocks™ are the original yoga and Pilates socks that feature a patent-pending non-slip sole for superior grip. Additionally the ExerSocks' reinforced sole is cushioned and has an innovative StretchBand for a snug fit. These yoga and Pilates sock feature small non-slip dots that actually grip into your mat and provide a much better grip on smooth surfaces than regular socks.

If you are looking for a yoga sock, the ExerSocks™ will provide you with a snug and comfortable non-slip sock that will still give you the freedom to "spread your toes". The ExerSocks™ are snug, but not constricting. Made from cotton and spandex these yoga socks will allow your feet to breath while giving you the secure balance that you need.

These yoga and Pilates socks provide the anti-bacterial protection of a sock, while providing the non-slip protection of
